OSAMA CHOOFAN

3D MODELING / CAD DESIGN
MECHANICAL ENGINEERING

SELECTED WORK • 2025–2026

CAD assemblies • engineering design • rapid prototyping

Design grounded in engineering

PROFILE

Mechanical Engineering student at the University of Doha for Science and Technology (UDST), with hands-on experience in CAD modeling, technical drafting, workshop production, CNC machining and rapid prototyping.

DESIGN & TECHNICAL CAPABILITIES

3D mechanical modeling • SolidWorks competition experience

AutoCAD drafting • Engineering drawings

CAD/CAM • CNC milling & turning • 3D printing

HIGHLIGHTS

1ST PLACE

SolidWorks Skills Day

UDST · February 2025

BEST RESEARCH AWARD

Capstone · May 2026

COMPETITION

Gold medal · SolidWorks Skills Day

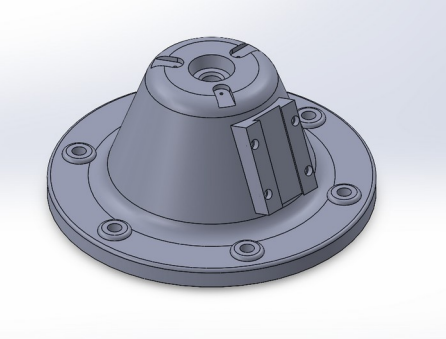

1ST PLACE WINNER

UDST Skills Competition

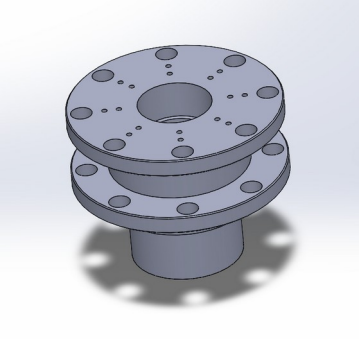

February 2025

Recognized for performance in a time-limited SolidWorks design challenge. The competition strengthened speed, accuracy and problem-solving under pressure.

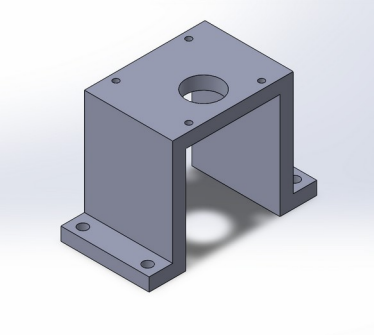

Selected CAD models

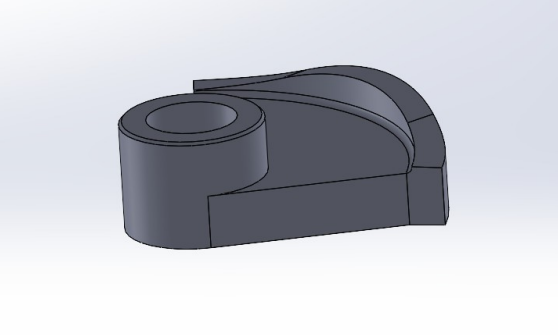

Mechanical housing / flange model

Multi-hole flange component

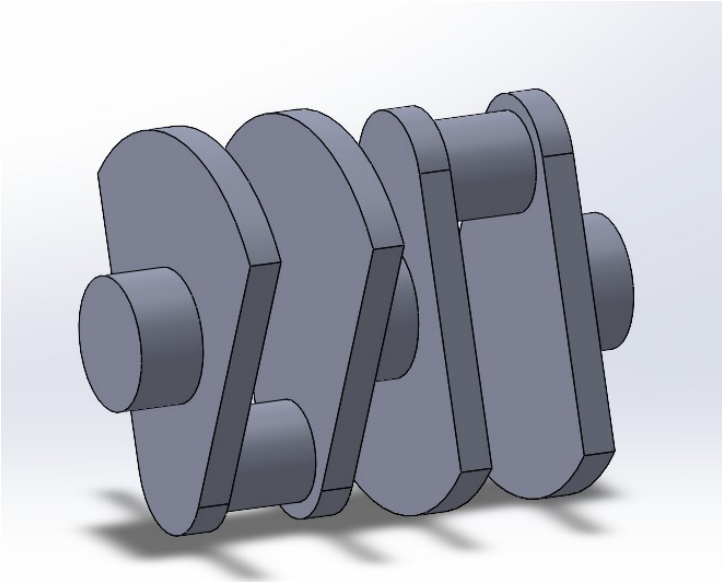

Bracket support model

Machined profile / support

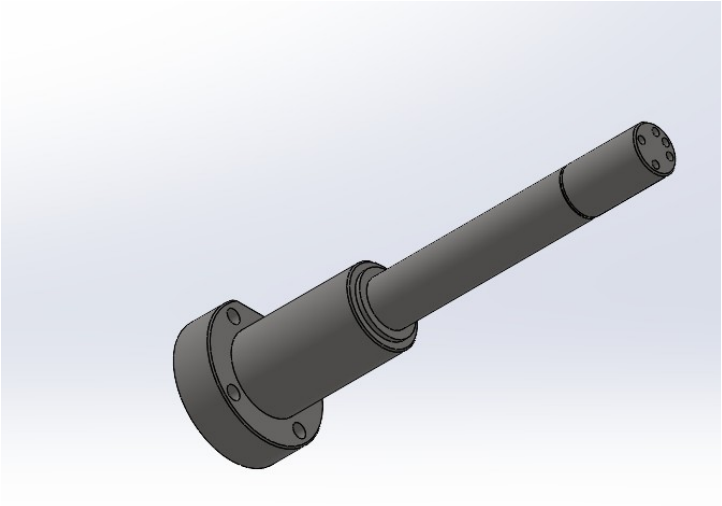

Selected project screenshots supplied for this portfolio. Project-specific specifications can be added where available.

From parts to assemblies

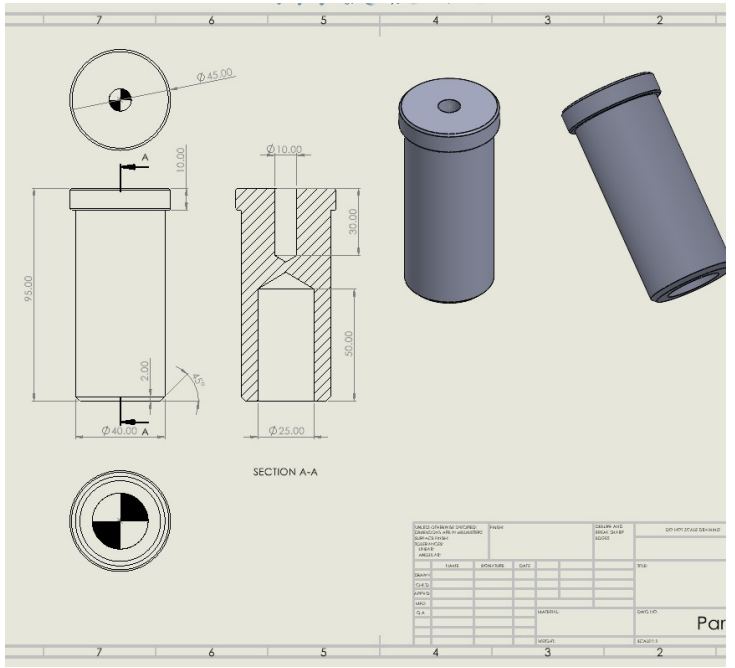

ASSEMBLY MODEL

Multi-component mechanical modeling

SHAFT / COMPONENT

Detailed 3D part geometry

TECHNICAL DRAWING

Dimensioned views and section details

Technical experience, practical outcomes

UNIVERSITY & INDUSTRY

Workshop & Lab Assistant | UDST

2024–2026

CNC milling and turning, tooling, workshop operations and support for engineering labs.

Engineering Intern | QAFCO

May–July 2026

Exposure to projects, maintenance, rotating equipment and industrial workflows.

MORE EXPERIENCE

Capstone research award · 2026

Graduation project involving 3D printing

Shell Eco-Marathon 2026 · Team member

QAPCO Engineering Competition 2025

Doha Exhibition & Convention Center · Event support

LET’S BUILD SOMETHING.
